

JUST KEEP GOING

Verse 1

There are two people they gave me my life.
Taught me about music, how to laugh and have pride.
They live by example, never had to say a word, but this is what I heard.

Chorus

Just keep going, I could see them through the years.
No matter how hard it gets turn and face your fears.
Always keep your head held high and never give in!
Just keep going, just keep going, keep going something better can begin.

Verse 2

No one is free from the trials of life.
There's hope for a balance, a reason to the rhyme.
Grab on to the good times, survive all the rest, dream on and try to forget.

Chorus

Just keep going, I saw them through the years.
No matter how hard it gets find strength in your tears.
Life is what happens when you're making other plans!
So just keep going, just keep going, keep going though you may not understand.

Bridge

What other choice do we have, but to not just lay down?!
What other choice do we have?
You know it only stops, when we're not around anymore. (instrumental break)

Verse 3

I have a dear friend, I'm lucky I know.
'Cause she came so very close to the end of her road.
The courage she had to show I just have to say, inspires me every day.

Chorus

Just keep going, keep on looking straight ahead.
No matter how the struggle gets you can win in the end.
There is no ball of crystal to tell us what will be so just keep going, just keep going,
keep going we can only believe.

Verse 4

My strong and dear friend gave me new eyes.
To see with new passion and help me realize, a life can really change in a
moment or two but you do what you have to do.

**Chorus
End**

Just keep going. Just keep going. Just keep going.
Try to hold on and keep going! Keep going something better, has to, begin.
It has to begin. It's got to begin. I know it will begin. (Just keep goin', goin', hmmm)
