

NATURAL PROGRESSION

- Verse 1** I've had music in my soul since birth. My family tree can verify that.
I tried so many things to occupy my mind, but it always came back to the fact;
a simple snap of a beat can get me movin' my feet, from the marrow when I sing.
- Pre Chorus** How many times do you live? Only once, so come on get on with it!
- Chorus** I have to follow my dream however hard it seems,
lay down tracks in a midnight session.
That's the natural progression, the natural progression.
- Verse 2** When you, let it go and let it flow, that's when it can happen, you feel the magic.
I can't give up, I won't live in fear, don't want a life of what might have been
Everyone deserves to do what they love! Only a few keep their fires lit.
- Pre Chorus** How many times do you live? Only once, so come on get on with it!
- Chorus** Follow your dream however long it seems.
Get what you need from each life lesson.
That's the natural progression, the natural progression.
- Bridge** Why live a life that you don't want to live? Too many look back with eyes of regret.
Well that's not for me; someday I will be free, never give up, just hold on and do it!
- Outro** There's a natural progression, natural progression.
Can't talk now, I'm late for my session. Follow your bliss, follow your passion.
There's only one chance, to make it happen. Natural progression,
there's a natural progression.
