

THE REST OF OUR DAYS

- Verse 1** Today is only a start, of showing you what's in my heart ya.
We are so much in love. A childhood dream come true
and I can't wait to build a life together 'cause,
- Chorus** We have, the rest of our days to say I love you.
The rest of our days, we're gonna make it all the way,
the rest of our days to say I love you.
- Verse 2** You're the sweetest love I've ever known. (Sweet, Sweet Love)
The seed of friendship has grown. (It's A Natural Love)
Right now we begin anew, as two become one,
And I can't wait to build a life together 'cause,
- Chorus** We have, the rest of our days to say I love you.
The rest of our days, we're gonna make it all the way,
the rest of our days to say I love you.
- Bridge** What will the future hold? (What will it hold?)
One can never know. (It's a mystery)
We'll get through what comes our way.
We'll make our dreams come true
and work so hard to build a life together,
- Chorus** We have, the rest of our days to say I love you.
The rest of our days, we're gonna make it all the way,
the rest of our days to say I love you.
- End** The rest of our days, together we'll make it all the way,
the rest of our days to say I love you.
